RE: *Parking Fine Increase - Bethlehem Parking Authority*

Dear Mr. Reynolds:

On behalf of the Bethlehem Parking Authority, I would ask that the Bethlehem City Council consider increasing the parking fines in the City of Bethlehem by amending the Codified Ordinances of the City of Bethlehem in accordance with the attached Schedule and supporting information.

The parking fine increases will have the following positive effects on parking in the City of Bethlehem:

1. Will help in increasing compliance with the City Ordinances dealing with parking;
2. Increase in compliance will increase turnover of parking meter spaces, which will have a positive effect for merchants in the City; and
3. Increase in compliance will increase space available for residential parking permit holders.

Although the meter fines will be increased, and revenues to the Parking Authority may increase slightly in the short term, the long term effect will be revenue neutral to the Parking Authority as people come into compliance and the number of parking tickets and violations decline over time. The meter fine increases are being recommended to City Council not to increase revenue to the Parking Authority, but rather to more effectively manage the Parking Authority while at the same time positively effecting the overall operations and management of parking within the City of Bethlehem.

William Reynolds, President
City Council
December 1, 2014

The request for the parking fine increases was unanimously approved by the Bethlehem Parking Authority Board and we hope that City Council will act favorably on our request. I will make myself available at the convenience of City Council to discuss the Parking Authority's request and answer any questions they may have.

Thank you for your kind attention to this matter.

Very truly yours,
