

**City of Bethlehem  
Wastewater Treatment Plant  
Municipal Industrial Pretreatment Program**

**Industrial Wastewater Discharge Permit Application**

**Section A – General Information**

1. Company name, mailing address, telephone number, fax number, and municipality.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Telephone Number \_\_\_\_\_

Fax Number \_\_\_\_\_

Municipality \_\_\_\_\_

2. Address of production or manufacturing facility. If same as above, check here

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Municipality \_\_\_\_\_

3. Person authorized to represent this facility in official dealings with the City of Bethlehem, designated to receive and send all reports, communications, etc., and who will be the Authorized Representative as described in Article 923 on page 9 of this application.

Name \_\_\_\_\_

Title \_\_\_\_\_

Address \_\_\_\_\_

Telephone Number \_\_\_\_\_

Fax Number \_\_\_\_\_

Email Address \_\_\_\_\_

4. Is this a proposed or existing facility?  Proposed  Existing

5. List Standard Industrial Classification (SIC) Codes and North American Industry Classification System (NAICS) Codes for each process at this facility

<u>Process</u>	<u>SIC Code</u>	<u>NAICS Code</u>
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

6. Identify and briefly describe each process that produces waste. Include the year in which discharge of each process began. Attach additional sheets if necessary.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

7. If this facility employs processes in any of the industrial categories listed below, place a check beside the category. Check all that apply.

8. This facility generates the following types of wastewaters. Check all that apply.

- domestic (bathrooms, showers, etc.)
- process
- facility/equipment cleaning
- cooling water, noncontact
- cooling water, contact
- boiler/tower blowdown
- air pollution unit
- other (describe) \_\_\_\_\_

9. List the permit number for any environmental permits held by this facility.

- NPDES – General \_\_\_\_\_
- NPDES – Stormwater \_\_\_\_\_
- NPDES – Industrial \_\_\_\_\_
- Hazardous Waste \_\_\_\_\_
- Air \_\_\_\_\_
- Solid Waste Disposal \_\_\_\_\_
- Health/Medical \_\_\_\_\_
- Other (specify) \_\_\_\_\_

10. Provide employee shift information.

Facility hours of operation: \_\_\_\_\_

Starting times of each shift: 1<sup>st</sup> \_\_\_\_\_ 2<sup>nd</sup> \_\_\_\_\_ 3<sup>rd</sup> \_\_\_\_\_

Number of employees per shift: 1<sup>st</sup> \_\_\_\_\_ 2<sup>nd</sup> \_\_\_\_\_ 3<sup>rd</sup> \_\_\_\_\_

11. List all environmental emergency response plans (Spill Prevention Control and Countermeasures (SPCC) Plan, Preparedness, Prevention and Contingency (PPC) Plan, Spill Prevention Response (SPR) Plan, etc.) prepared for the facility and the date of the latest revisions.

---

---

---

---

In accordance with City of Bethlehem Ordinance Article 923 Section 923.02(h), if determined to be necessary, a Spill Prevention Plan shall be supplied to the City. A Spill Prevention Plan shall contain, at a minimum, the following elements:

- Description of discharge practices, including non-routine batch discharges;
- Description of stored chemicals;
- Procedure for immediately notifying the POTW of slug load/accidental discharges, including any discharges which would violate a prohibition under 40 CFR 403.5(b), with procedures for follow-up written notification within five days;
- If necessary, procedure to prevent adverse impact from accidental spills, including inspection and maintenance of storage areas, handling and transfer of materials, loading and unloading operations, control of plant site run-off, worker training, building of containment structures or equipment, measures for containing toxic organic pollutants (including solvents), and/or measures and equipment necessary for emergency responses.

12. Is this facility planning any process changes or expansions over the next three years?  Yes  No  
If yes, discuss the anticipated changes in process and/or sanitary wastewater quantity or quality.

---

---

---

---

---

13. If applicable, describe any environmental improvement projects anticipated for implementation at the facility in the next three years.

---

---

---

---

---

## **Section B – Facility Operation Characteristics**

Complete the following for each activity or process at this facility that produces wastewater. Attach additional copies as needed.

1. Process or product manufactured: \_\_\_\_\_
  
2. On a separate sheet, provide a flow chart of the process. Identify all manufacturing steps, water supply points, wastewater discharge points, wastewater sampling points, recycling routes, and pretreatment facilities.
  
3. Production process is:  
 Continuous  
 Batch      Average number of batches per 24-hour day \_\_\_\_\_  
 Both      %Batch \_\_\_\_\_ %Continuous \_\_\_\_\_
  
4. On a separate sheet, list all raw materials, process additives, and any cleaning products used in this process. Attach safety data sheets (SDSs) and/or labels showing product components.
  
5. Is this process subject to seasonal variation?  Yes  No  
If yes, briefly describe seasonal production cycle: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
  
6. Does pretreatment occur on the wastewater of this process before discharge to the sanitary sewer?  
 Yes  No If yes, briefly describe the pretreatment process: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
  
7. Does this process waste stream combine with any other process waste streams or with domestic waste prior to pretreatment or entering the sanitary sewer?  Yes  No  
If yes, describe which waste streams combine and where: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
  
8. This process generates the following types of wastes. Check all that apply and list amounts (gallons or pounds per month or year).  
 acid, alkaline or corrosive materials \_\_\_\_\_  
 flammable or explosive materials \_\_\_\_\_  
 heavy metal sludges \_\_\_\_\_  
 inks or dyes \_\_\_\_\_  
 metal solutions \_\_\_\_\_  
 oil/grease \_\_\_\_\_  
 paints \_\_\_\_\_  
 pesticides \_\_\_\_\_  
 plating wastes \_\_\_\_\_  
 phenols and/or other toxic organic compounds \_\_\_\_\_  
 pretreatment sludges \_\_\_\_\_  
 radioactive materials \_\_\_\_\_  
 soaps or detergents in large amounts \_\_\_\_\_  
 other (describe) \_\_\_\_\_

**Section C – Water Supply and Usage**

1. What are the facility's sources of water? Check all that apply and list the average gallons of water used per day.

- municipal supply \_\_\_\_\_
- private well(s) \_\_\_\_\_
- surface water intake \_\_\_\_\_
- trucked/hailed \_\_\_\_\_
- other (describe) \_\_\_\_\_

2. List the location, size, associated account number, usage in gallons per day, and process supplied for all water meters in the facility.

<u>Location</u>	<u>Size</u>	<u>Account No.</u>	<u>Usage (gpd)</u>	<u>Process Supplied</u>
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____

3. Describe any raw water treatment processes in use.

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

4. What are the uses of water at the facility? Check all that apply. List the average gallons of water used per day for each use.

- domestic wastes (bathrooms) \_\_\_\_\_
- cafeteria/food prep \_\_\_\_\_
- cooling water, contact \_\_\_\_\_
- cooling water, noncontact \_\_\_\_\_
- boiler/tower blowdown \_\_\_\_\_
- process water \_\_\_\_\_
- water included in product \_\_\_\_\_
- equipment/facility cleaning \_\_\_\_\_
- air pollution control \_\_\_\_\_
- other (describe) \_\_\_\_\_
- other (describe) \_\_\_\_\_

**Section D – Wastewater Characteristics**

1. How does wastewater discharge from the facility? Check all that apply. List the average gallons of wastewater per day for each discharge.

- sanitary sewer \_\_\_\_\_
- storm sewer \_\_\_\_\_
- recycled \_\_\_\_\_
- permitted discharge point \_\_\_\_\_ NPDES permit # \_\_\_\_\_
- evaporation \_\_\_\_\_
- hauled off site\* \_\_\_\_\_
- other (describe) \_\_\_\_\_

\* Provide name, address, and telephone number of any waste haulers.

\_\_\_\_\_  
 \_\_\_\_\_

2. List all facility connections to sanitary sewer mains. Attach a map or diagram for reference.

<u>Location</u>	<u>Size</u>	<u>Wastewater Source(s)</u>	<u>Gallons per Day</u>
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

3. Fully describe all available sampling points for this facility's wastewater discharge locations identified in D.2. above.

\_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

4. Are wastewater discharges to sanitary sewer intermittent or steady? If intermittent, describe schedule as fully as possible, including peak rates, times, and duration of discharges.

\_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

5. Provide the following information for all wastewater flow meters at this facility.

<u>Location</u>	<u>Size</u>	<u>Type</u>	<u>Gallons per Day</u>	<u>Measures Flow From</u>
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____

6. Describe any wastewater treatment or pretreatment equipment in use.

\_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

7. Describe any Federal Categorical Pretreatment Standards that apply to the facility. If production based discharge limits apply, include relevant production records with this application.

---

---

---

---

---

a. Does the facility meet applicable Federal Categorical Pretreatment Standards on a consistent basis? Yes No N/A

b. Are additional pretreatment facilities and/or operation and maintenance procedures required to meet Federal Categorical Pretreatment Standards? If so, describe and list the schedule by which they will be provided.

---

---

---

---

---

**Section E – Solid Wastes**

If the facility does not generate solid wastes other than business waste, skip to section F.

1. What types of solid waste does this facility generate? Check all that apply.

- municipal waste
- residual waste
- hazardous waste
- infectious waste
- chemotherapeutic waste
- other (describe) \_\_\_\_\_
- other (describe) \_\_\_\_\_

2. Describe solid waste disposal methods for the facility. Include name, address, and phone number of any haulers, and disposal amounts per month or year.

---

---

---

3. Does the facility generate pretreatment residuals? Yes No If yes, identify the following characteristics of these pretreatment residuals.

Quantity: \_\_\_\_\_ gallons per day or \_\_\_\_\_ pounds per day (dry weight)  
Moisture Content: \_\_\_\_\_ percent solids  
Disposal Method \_\_\_\_\_

4. Does the facility generate any other types of solid waste? Yes No If yes, identify the following characteristics of the waste.

Description \_\_\_\_\_  
Quantity: \_\_\_\_\_ gallons per day or \_\_\_\_\_ pounds per day (dry weight)  
Moisture Content: \_\_\_\_\_ percent solids  
Disposal Method \_\_\_\_\_

**Section F – Wastewater Monitoring**

1. Are any of the priority pollutants in Table I listed at the end of the application used at this facility in manufacturing the product or generated as a byproduct? If so, please note on Table I.
2. List any other pollutants known or anticipated to be present in the facility or in the wastewater discharged to the sanitary sewer.

---

---

---

3. Provide laboratory analysis results for each of the following parameters. Perform sampling and laboratory analyses in accordance with EPA regulations listed in 40 CFR Part 136. Samples must be representative of the facility's typical wastewater discharge. Be sure to describe the sample collection location and attach the original laboratory report. Attach additional sheets for more than one sample location. Results from samples taken within the last six months may be used. For a proposed facility not yet discharging, results from a similar facility located elsewhere may be used.

Sample collection location: \_\_\_\_\_

<u>Category One</u>	<u>Result</u>	<u>Unit</u>
Ammonia (NH <sub>3</sub> -N)	_____	_____
Biological oxygen demand (BOD <sub>5</sub> )	_____	_____
Chemical oxygen demand (COD)	_____	_____
Color	_____	_____
Oil and grease	_____	_____
pH	_____	_____
Temperature	_____	_____
Total suspended solids (TSS)	_____	_____
Total petroleum hydrocarbons (TPH)	_____	_____

<u>Category Two</u>	<u>Result</u>	<u>Unit</u>
Arsenic, total	_____	_____
Cadmium, total	_____	_____
Chromium, total	_____	_____
Copper, total	_____	_____
Lead, total	_____	_____
Mercury, total	_____	_____
Molybdenum, total	_____	_____
Nickel, total	_____	_____
Selenium, total	_____	_____
Silver, total	_____	_____
Zinc, total	_____	_____
Cyanide, total	_____	_____

Category Three – Any pollutants identified in F.1. and F.2. above.

<u>Pollutant</u>	<u>Result</u>	<u>Unit</u>
_____	_____	_____
_____	_____	_____
_____	_____	_____

Category Four

Pretreatment standard pollutants of any industrial category identified in A.7. Contact Christian Torres for the complete list of applicable pollutants. Attach laboratory report with results.

**Section G – Intent to Self Monitor**

Please select one of the following options.

- This facility elects to conduct self monitoring in order to determine compliance with site specific numeric discharge limitations. Self monitoring will be completed in accordance with the applicable terms and conditions of the issued Industrial Wastewater Discharge Permit and Article 923 of the City’s Codified Ordinances.
- This facility authorizes the City of Bethlehem to complete monitoring on its behalf in order to determine compliance with site specific numeric discharge limitations. The facility will be responsible for all fees associated with sampling and analysis as defined in the issued Industrial Wastewater Discharge Permit. In the event that the facility may independently collect additional discharge monitoring data, the data will be reported to the City of Bethlehem in accordance with the applicable terms and conditions of the issued Industrial Wastewater Discharge Permit and Article 923 of the City of Bethlehem’s Codified Ordinances.

**Section H – Certification Statement**

An authorized official, as described below, should sign this application after adequate completion and review of the form.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

<i>Authorized Representative Signature</i>	Date
Printed Name _____	Phone _____
Title _____	Email _____

Codified Ordinances of the City of Bethlehem Article 923.01(e) Authorized Representative of a User: an authorized representative of a User may be:

- (1) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision making functions for the corporation.
- (2) A general partner or proprietor, if the User is a partnership or proprietorship, respectively.
- (3) A director or highest official appointed or designated to oversee operations and performance, if the User is a Federal, State or Local Governmental facility.
- (4) A duly authorized representative of the individual identified in (1) through (3) above, if such representative is responsible for the overall operation of the facilities from which the indirect discharge originates and a written request for designation of an alternate representative is approved by the City.

Please return completed applications to:

Mr. Christian Torres, MIPP/QC Coordinator  
City of Bethlehem Wastewater Treatment Plant  
144 Shimersville Road  
Bethlehem, PA 18015

**NOTE:** The processing fee for the City of Bethlehem’s Industrial Waste Discharge Permit Application is currently \$250.00. Please include a check or money order payable to the City of Bethlehem in the amount of \$250.00 with this application. The City of Bethlehem will not review applications without the processing fee and industrial wastewater discharges will be in violation of City of Bethlehem Codified Ordinance 923.
