

**Summary of Recommended Revisions
to the Draft Comprehensive Plan
November 13, 2008**

1. A provision should be added to the Transportation Chapter to note that the City will continue to work with Lehigh Valley Transportation Study (LVTS) to *support regional transportation issues, as designated in the Transportation Improvement Plan (TIP)*.
2. The noted high priority crash locations and street functional classifications should be updated to address LVTS and PennDOT data.
3. The Lehigh Valley 2030 Comprehensive Plan should be noted in the introduction chapter to clarify that Bethlehem's Comprehensive Plan will be generally consistent with the regional plan.
4. Radio station WDIY and the Bethlehem Area Public Library will be added to the Arts and Culture chapter as existing cultural amenities in the City.
5. The term "high-value open spaces" will be more specifically clarified in the environmental conservation strategies, utilizing the language recently adopted in the recreation fee ordinance.
6. The term Smart Growth should be defined or described in the Housing and Neighborhoods chapter.
7. The Plan should include a statement regarding accessibility for disabled residents.
8. The Future Land Use map should be changed to reflect General Commercial or Shopping Center uses on the east side of Airport Road.
