

CITY OF BETHLEHEM

Department of Community and Economic Development Interoffice Memo

TO: Planning Commission members
FROM: Darlene L. Heller, Director of Planning and Zoning
RE: September 23 agenda

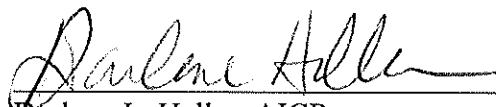

Both the 2022 Capital Improvement Plan and the Broad Street Active Transportation Plan are included on your September 23 agenda.

The Commission reviews the Capital Improvement Plan annually in September and forwards a recommendation to City Council. We will review that documents at the meeting in coordination with a representative of the Finance Office.

The Broad Street Active Transportation Plan is a conceptual plan that Bethlehem was able to complete with support from a WalkWorks grant and much public input. Our consultants, Traffic Planning and Design (TPD), will be in attendance at the meeting for the presentation. This project will also be forwarded to City Council with a recommendation regarding full adoption.

We will provide further information on both of these projects at the meeting.

DATE: 9-16-21
