

CITY OF BETHLEHEM
INTER-DEPARTMENTAL CORRESPONDENCE

SUBJECT: Request for Approval by City Council of Contract Award or Contract Price Increase Pursuant to City Ordinance, Article 121.05 (a)

Project or Contract Reference: 2019 11 WWTP Bar Screen and Detritor Replacement – Electrical Construction

TO: City Council, all members, and Council Solicitor

FROM: Edward J. Boscola, P.E. – Director of Water & Sewer Resources

DATE: June 29, 2020

On behalf of the Administration, pursuant to City Ordinances, Article 121.05, I request City Council's approval of the following recommendation of the referenced contract award or price increase.

- Check Type of Contract or Change:

The contract is for over \$50,000 and required to be bid under the Third Class City Code. We have advertised the above referenced project and received qualified bids. We recommend award of the contract to the bidder identified and for the reasons stated below.

The recommendation is for a price increase of 10% or more for an existing contract over \$50,000 that was previously bid and awarded under the Third Class City Code.

The contract is for the engagement of professional services. We have received a proposal for professional services in connection with above referenced project. We recommend award of the contract to:

- Is the contract appropriation or price increase included in this year's budget? yes no
- Identify contract funding sources (general fund, grants, loans, etc.....):

Sewer Capital: 008A-88024

- The name and address of the recommended Professional Service Provider are:

Brendan Stanton, Inc.t/a BSI Electrical Contractors
416 Stump Road
Montgomeryville, PA 18936

- Term of contract or estimated completion date, subject to standard extensions:

390 days from Notice to Proceed (no change from original contract terms)

- Description of project or scope of services to be provided:

This change order is to add explosion proof electrical disconnect switches, conduit, boxes, and cabling for the waste water treatment bar screen process equipment purchased by the City through Co-Stars. This scope of work was omitted during the design and bidding phase because equipment submittals from the Co-Stars vendor were not provided in time to properly coordinate the work and assign this scope to the electrical contract. This equipment includes code required disconnect switches for electrical safety purposes. Assigning this scope to the Electrical Contractor in lieu of the Co-Stars vendor is more cost-effective for the City relative to the total project price tag of \$3.5 million.

- State the actual or estimated price to the City or the proposed Department budget allowance for the initial term; and state payment rate per unit of service if applicable:

Original Contract Price = \$248,525.00
CO #1 = \$70,231.25
New Contract Price = \$318,756.25

- Number of renewal term options and duration of each renewal, if any:

None

- Maximum dollar value of all renewals provided for beyond the original term as if all renewals were exercised:

N/A

- Reasons for recommendation of Administration and Council approval of contract:

This equipment is needed per electric code and having the Electrical Contractor install instead of the equipment manufacturer is the most cost effective and efficient way to proceed. Therefore, we request approval of this change order request.

Please approve this recommendation by passing the accompanying resolution. A vote of final approval is requested at the first City Council agenda listing of this matter.

By: Edward J. Boscola
Department Head
