

**RESOLUTION NO. 2024-\_\_\_\_\_**

RE: CERTIFICATE OF APPROPRIATENESS UNDER THE PROVISIONS  
OF THE ACT OF PENNSYLVANIA LEGISLATURE 1961, JUNE 13, P.  
L. 282 (53 SECTION 8004) AND BETHLEHEM ORDINANCE NO. 3952  
AS AMENDED.

The applicant/owner of the property located at 58 East Wall Street proposes to install a new 6-foot-high fence.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Bethlehem that a Certificate of Appropriateness is hereby granted for the proposal.

## **HISTORICAL & ARCHITECTURAL REVIEW BOARD**

APPLICATION #4: The applicant/owner of the property located at 58 East Wall Street proposes to install a new 6-foot-high fence.

OWNER: Russel Miserendino  
58 East Wall Street  
Bethlehem, PA 18018

---

The Board upon motion by Joe McGavin and seconded by Diana Hodgson adopted the proposal that City Council issue a Certificate of Appropriateness for the installation of a new 6-foot-high fence, with the following conditions;

1. The fence shall be painted steel grey to match the color of the existing carport.
2. All gate hardware shall be black in color.
3. All fence posts shall receive copper caps.

The vote was unanimous to approve the installation of a new 6-foot-high fence, as per the motion.

### **Guideline Citation:**

Secretary of Interior Standards No.(s)

#2 The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

#5 Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.

#6 Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

#9 New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with historic materials, features, size, scale and proportion, and massing to protect the integrity of the historic property and its environment.

#10 New additions and adjacent or related new construction will be undertaken in such manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

## Bethlehem Historic District Design Guidelines

### Page 8: Paint: The HARB encourages,

- Hand washing with mild detergent and bristle brush, hand scraping, and hand sanding

The HARB discourages,

- Rotary tools – disks can leave circular marks and wires can tear into the surface
- Heat guns and heat plate – can ignite paint or underlying surface if left in one location too long
- Chemical paint removers – can raise grains, be expensive, and potentially volatile; runoff can be hazardous
- Flame tools, blow torches to soften paint – smoldering sparks can potentially start a fire; lead components in paint can vaporize and create highly toxic fumes
- Sandblasting – can be abrasive to surface, wear away protective exterior coating and raise the wood grain
- High-pressure water wash – forces water into open joints affecting interior finishes and structural framing; can be abrasive to exterior surface and raise the grain

### Page 13: Fences: The HARB encourages,

- Maintaining historic fences, walls, and gates, including regular repainting of wood and metal elements
- Installing fences and gates with a painted finish that compliments the property, with posts facing towards the interior of a property

The HARB discourages,

- Blocking views to principal elevations of historic buildings and settings with tall, solid fences; solid walls; or dense plantings and foliage
- Installing non-traditional fencing materials such as vinyl
- Installing stockade fencing
- Installing chain link fencing

**Evaluation, Effect on Historic District, Recommendations:** The proposed work conforms with the intent of the Secretary of the Interior's Standards for Rehabilitation and the Bethlehem Historic District Design Guidelines and will have no negative impact to the historic district.

Date of Meeting: February 7, 2024
