

CITY OF BETHLEHEM
INTER-DEPARTMENTAL CORRESPONDENCE

SUBJECT: Request for Approval by City Council of Contract Award or Contract Price Increase Pursuant to City Ordinance, Article 121.05 (a)

Project or Contract Reference: 2025 28 Easton Ave to Stefko Blvd Drainage Area Improvements

TO: City Council, all members, and Council Solicitor

FROM: Michael Alkhal, P.E., Director of Public Works / City Engineer

DATE: May 13, 2025

On behalf of the Administration, pursuant to City Ordinances, Article 121.05, I request City Council's approval of the following recommendation of the referenced contract award or price increase.

- Check Type of Contract or Change:

 The contract is for over \$50,000 and required to be bid under the Third-Class City Code. We have advertised the above referenced project and received qualified bids. We recommend award of the contract to the bidder identified and for the reasons stated below.

 The recommendation is for a price increase of 10% or more for an existing contract over \$50,000 that was previously bid and awarded under the Third-Class City Code.

 X The contract is for the engagement of professional services. We have received a proposal for professional services in connection with above referenced project.

- Is the contract appropriation or price increase included in this year's budget? x yes no
- Identify contract funding sources (general fund, grants, loans, etc.....):

Stormwater Fund: 012A-43223
 012A-42047

- The name and address of the recommended Contractor/Professional Service Provider:

Herbert, Rowland & Grubic, INC.
1275 Glenlivet Drive, Suite 145
Allentown, PA 18106

- Term of contract or estimated completion date, subject to standard extensions: 12/31/26

- Description of project or scope of services to be provided:

The Easton Avenue to Stefko Boulevard drainage area is a large drainage area, close to 400 acres, in the northeastern part of the City of Bethlehem with a vast majority of it conveying runoff by land/surface flow (unsewered). Flooding issues in the past due to concentration points in the surface flow has become a flooding concern and needs to be addressed. There are some underground stormwater systems pipes in the drainage area that collect the runoff and conveys it into the Stefko Swale and then south to the Lehigh River.

- State the actual or estimated price to the City or the proposed Department budget allowance for the initial term; and state payment rate per unit of service if applicable: \$106,470.00
- Number of renewal term options and duration of each renewal, if any: N/A
- Maximum dollar value of all renewals provided for beyond the original term as if all renewals were exercised: N/A
- Reasons for recommendation of Administration and Council approval of contract:

The Stormwater Section in the Bureau of Engineering solicited and received three (3) proposals for this professional service with fees ranging from \$62,800 to \$214,530. Herbert, Rowland & Grubic, Inc. (HRG) submitted the most responsive proposal and was identified as the best qualified bidder. They have a strong track record with the City, having successfully completed similar projects. This project is directly connected to the Stefko Drainage Swale Improvements which is also being awarded to HRG. Engaging the same team for both efforts would promote consistency, coordination, and project efficiency.

Please approve this recommendation by passing the accompanying resolution. A vote of final approval is requested at the first City Council agenda listing of this matter.
