About this home

PRICE REDUCED! Tucked into a quiet neighborhood in Bethlehem is this stunning Alex Sanko designed modern home set on almost an acre of manicured land. Custom built in 1978, Contemporary on Apollo is a unique piece of art. A gracious courtyard with stone walls and gate is the entry to this special house. A clay tile floor and 20' vaulted ceiling highlight the open plan living and dining area, with a wood-burning fireplace and windows on all sides to enjoy swimming pool and courtyard views. The kitchen marries form and function with granite countertops, ample prep space, and an adjacent breakfast area. The family room is perfect for entertaining with plush carpeting, tall windows, and a separate galley kitchenette that leads out to the pool. The primary suite is spacious, with office space, a walk-in closet, and an ensuite bath with a sunken, jetted tub that doubles as a steam shower. Three more generously sized bedrooms comprise this side of the house, including a guest suite. Attic space along with an attached 2-car garage provide plenty of storage. The rear courtyard is private and elegant, with access to the heated in-ground pool with diving board. A nearby pool house offers a convenient full bath. Landscape lighting and lush grasses highlight the many specimen plantings. Located in the Bethlehem Area School District and just minutes from shopping, dining, and commuter routes, Contemporary on Apollo's thoughtful design has stood the test of time and continues to deliver great modern living to future generations.
