2. APPROVAL OF MINUTES

January 5, 2026

3. PUBLIC COMMENT

A. PUBLIC COMMENT (on any subject not being voted on this evening – 5 Minute Time Limit)

*Keith Dow*

Mr. Dow urged the Mayor and Council to encourage Wind Creek Casino to repair the lighting on the stacks at the former Bethlehem Steel facilities.

*Mark Will-Weber*

Mr. Will-Weber appreciated language included in the budget that offering downloadable water apps for customers will be a goal of the City's. He encouraged Council and the City to bring this to fruition as soon as possible.

*William Scheirer*

Mr. Scheirer complimented Public Works for snow clearing efforts during the weekend snowstorms.

*Michael Ohare*

Mr. Ohare said the Bethlehem Co-op is still not open after five years. The co-op has received several million in federal, state, and local funding and yet it is in debt and recently announced it will not declare an opening date. He asked Council to investigate and suggested perhaps that plans should be scrapped and the building used for another purpose such as a homeless shelter.

*Stephen Antalics*

Mr. Antalics urged President Leon or newly elected Council members to make a motion to add the cost of four additional firefighters to the budget and significantly fund this by eliminating two new positions approved for DCED.

- B. PUBLIC COMMENT (on ordinances and resolutions to be voted on by Council this evening – 5 Minute Time Limit).

None.

4. OLD BUSINESS

- A. Members of Council
- B. Tabled Items
- C. Unfinished Business

5. NEW BUSINESS

- A. *President Leon – Ethics Training*

President Leon announced that the state Ethics Commission will provide remote ethics training at 6 PM on Tuesday, February 24 in Town Hall for elected officials and department heads.

*Mr. Callahan*

Mr. Callahan revisited his prior suggestions to charge college students a set fee for emergency services the City offers. He asked Fire Chief Matthew Griffin to provide monthly reports that would track the number of fire and ambulance calls involving college students. Chief Griffin said an attempt could be made but off-campus addresses may be difficult to pinpoint. Mr. Callahan also asked for a list of amounts that nonprofits are paying the City in lieu of taxes. Mayor Reynolds offered two cautions: that all nonprofits would have to be included and that landlords of residential renters already are paying taxes to cover their tenants. Mr. Callahan also suggested a practice whereby some municipalities are recovering emergency services costs from insurance companies for motor vehicle accidents. He said he wanted to start now to find funding to restore the four lost firefighter positions so there would not be a need to scramble at budget time.

Mr. Callahan also asked about the SteelStacks lighting circumstances. Mayor Reynolds does not believe an agreement exists in which Wind Creek must maintain the lighting but he believed it would be seen as a promise that was made by the prior casino owner that transferred with the sale.

*Mr. Colón*

Mr. Colón recalled that Council in 2012 passed a resolution seeking an in lieu of taxes fee from nonprofits. He asked the Clerk to research the minutes and resolutions to confirm the actions taken. Copies should be emailed to Council for its knowledge of prior related discussions on the same topic.

Similarly, Ms. Leon believed the suggestion of charging college students \$50 apiece for emergency services protection was addressed at budget time. Council Solicitor Stephanie Steward repeated her answer offered at that time. Essentially, fees may be charged for a service but cannot be charged in advance to support the service. On a related matter, Solicitor Steward said that insurance companies can be assessed for emergency services related to motor vehicular accidents but this requires having an ordinance in place. This may be an area to be explored.

Ms. Kwiatek asked Mr. Boscola for more information. Mr. Boscola said the last sewer rate increase was in 2024. Council at that time recommended that before another sewer rate increase is sought, a thorough study should be done justifying the rates. This study will review the revenue stream and how rates are apportioned among the rate classes, and how tributary municipalities are charged. This is preparation for the likelihood that a rate increase will be sought within the next few years.

Solicitor Spirk believed the language of the lease would not exclude quick drop-offs but a subsequent letter agreement could further clarify this intention.
