## **HISTORICAL & ARCHITECTURAL REVIEW BOARD**

APPLICATION #4: The applicant/owner of the property located at 239 East Wall Street proposes to replace the existing roof shingles with GAF Lifetime Timberline HDZ Shingles in Pewter Gray color.

OWNER: Emilie Galle  
239 East Wall Street  
Bethlehem, PA 18018

---

The Board upon motion by Michael Simonson and seconded by Connie Postupack adopted the proposal that City Council issue a Certificate of Appropriateness for the replacement of the existing roof shingles with new GAF Lifetime Timberline HDZ Shingles in Pewter Gray color, with the following conditions;

1. Applicable permits shall be secured by the Applicant prior to any work taking place.
2. Color of aluminum drip edge to match existing trim.
3. Chimney flashing to be real copper.

The vote was unanimous to approve the replacement of the existing roof shingles with new GAF Lifetime Timberline HDZ Shingles in Pewter Gray color, as per the motion.

### **Guideline Citation:**

#### Secretary of Interior Standards No.(s)

#9 New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work shall be differentiated from the old and will be compatible with historic materials, features, size, scale and proportion, and massing to protect the integrity of the historic property and its environment.

#10 New additions and adjacent or related new construction will be undertaken in such manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

#### Bethlehem Historic District Design Guidelines

##### Page 7: Roofing:

The HARB encourages,

- Replacement of roofing materials when beyond repair, matching original color, pattern, material, and texture
- Replacement roof materials or new materials for additions and new construction that are sympathetic in appearance to historic materials
- Retention of decorative roof elements such as chimneys, cupolas, cresting, finials, eaves, and cornices
- Maintaining existing roof forms and heights for existing buildings or additions and using sympathetic roof forms and heights for new construction

- Retaining built-in gutters and open valley flashing
- Installing shingle caps along ridge or extending vents continuously to end of ridge
- Painting drip edges to match adjacent trim
- Installing half-round gutters and plain round downspouts
- Installing flashing on top of cornices to prolong their longevity, painted to match cornice color

The HARB discourages,

- Adding or altering rooftop features at areas visible from a public way that change a roof configuration, such as skylights, television antennae or dishes, solar collectors, mechanical equipment, roof decks, chimney stacks, and dormer windows
- Adding new features that are out of character, scale, materials, or detailing to the historic building
- Altering, enclosing, or removing historic eaves and cornices

**Evaluation, Effect on Historic District, Recommendations:** The proposed work conforms with the intent of the Secretary of the Interior's Standards for Rehabilitation and the Bethlehem Historic District Design Guidelines and will have no negative impact to the historic district.
